SUMMARY

I am a Frontend Engineer with over 6 years of extensive experience specializing in user interface development and API integration for web applications. My expertise in various frontend technologies enables me to create user-friendly and intuitive applications. I am committed to driving project success through my technical skills and dedication.

EXPERIENCE

Consultant UI

Infogain

⌚ 10/2024 - Present

Consultant UI

- **Repair Management:** Designed and implemented a Technician Portal with clock-in/out functionality to track repair hours, improving operational visibility for collision repair workflows.
- **Photo-Based Estimation (PBE 2.0):** Built an AI-powered guided photo capture system enabling policyholders and adjusters to submit high-quality vehicle damage images using OCR and image validation.
- Developed reusable UI components, integrated REST APIs, and ensured responsive, accessible interfaces for enterprise users.

Software Engineer

6D Technologies Pvt. Ltd

⌚ 01/2023 - 10/2024

Software Engineer

- **ETOPUP system:** Developed a microfrontend-based system to manage dealer-retailer hierarchies, roles, features, profiles, and commission workflows using modular, scalable React applications.
- Built reusable frontend modules and configuration-driven components to support business process automation and rapid feature rollout across multiple ETOPUP modules.
- **Low-code UI platform:** Contributed to a low-code UI platform enabling faster creation of dynamic UIs, integrating React components with Fastify (Node.js) and Java microservices for seamless backend communication.

System Engineer

TATA Consultancy Services

⌚ 02/2020 - 01/2023

System Engineer

- **Bio-safety management:** Developed a system enabling research scientists to submit and manage protocol registrations through intuitive, validated web interfaces.
- **Bio-compatibility ML application:** Built an application for healthcare organizations to classify health-related documents by integrating machine learning models with a performant frontend.

EDUCATION

Bachelor of Technology

Government College Of Engineering, Karad

⌚ 06/2015 - 06/2019

H.S.C

Shri Akkatai Narasappa Nandrekar, Jayasingpur

⌚ 06/2014 - 06/2015

PROJECTS

MERN FullStack Ecommerce App

🔗 <https://mern-e-commerce-app-nu.vercel.app>

- Built a full-stack e-commerce application with customer-facing storefront and secure admin panel for product, order, and user management.
- Implemented authentication and authorization using Passport.js and JWT, along with Stripe payment gateway integration for secure online transactions.
- Developed RESTful APIs, optimized frontend performance, and deployed the server on Render & Frontend on Vercel.

Financial dashboard Nextjs App

🔗 <https://financial-dashboard-nextjs-omega.vercel.app>

- Developed a full-stack financial dashboard with public and authentication-protected routes, invoice CRUD, search and pagination, and server-side data fetching/mutations
- Implemented secure authentication, form validation, error handling, performance optimizations, and SEO-ready metadata

SKILLS

JavaScript Typescript HTML5
